Commercial & Industrial Contractors

office: (517) 764-4770
fax: (517) 764-5564

Who: We are O'Harrow Construction Co. For over 50 years we have been providing Design/Build Construction services for Commercial, Industrial, Institutional and Municipal customers.

What: We plan, design, fabricate and construct new facilities, additions to existing buildings, and modifications to structures. We also perform miscellaneous construction items such as steel racks and mezzanines, concrete pits, overhead cranes, new equipment with associated supports, emergency repairs, etc.

Where: Our corporate offices are located in Jackson, Michigan. However, we have performed services in a multitude of States. Currently, our in house registered Professional Engineers (P.E.) are licensed to practice in 11 various states and have access to P.E.'s in all portions of the country.

Why: Our goal is to assist customers in achieving their organizations needs by controlling design/construction costs and maintaining project schedules.

When: Upon your request, we can meet to discuss proposed projects and provide you with cost estimates and schedules. Our in-house professional design team and our highly experienced construction staff are capable of providing fast, effective services for demanding business environments.

President's Message

The ability to provide practical and economical solutions to difficult construction problems has been one of the most rewarding aspects of the construction business and a hallmark of our success. We have developed full service single source design/build and general contracting capabilities which give us control over the process and in turn, the cost of construction.

Our growth has been continuing and steady. We have maintained a talented staff of dedicated craftsmen by providing challenging work assignments, a safe work environment and the equipment and materials necessary to do the job, and do it on time. This firm has a solid foundation. We have been able to support our growth while remaining debt free.

Those who have contributed to our success include our customers, suppliers, subcontractors and staff. We will strengthen our existing relationships and forge new ones as we strive to build lasting quality into every job.
